X. Cindy Cui, AIA, LEED AP

Principal/Senior Associate

Experience and Qualifications

Cindy has a unique working experience spanning planning, architectural, urban design and interior design disciplines. She has worked in Europe, Asia and the United States, from large hospital campus planning, small town redevelopment planning, office building design and construction management to high rise mixed-use office towers. She worked on public schools and municipal works in upstate New York for four years. Her broad education and working experience enables her to lead projects successfully. She has excellent presentation and 3D skills which can help clients visualize design before its completion.
