

Things are well underway in 2022. We are through the holiday season and hopefully turning a corner with the Omicron variant. We remain busy as ever.

We are excited to announce these new hires to the KG/KNA team.

Ashley Sabuncu - Senior Project Manager

Ashley joins the team as a seasoned architect and designer engaged in projects of all types and scales.

Education: Master of Architecture degree from NJIT.
Bachelor of Architecture from Istanbul Technical Univ.

Ashley joins us from EI Associates and has worked on corporate, life sciences and schools projects as a Project Manager / Architect. Previously she worked in New York City designing new multi-use buildings including hotels, offices, retail stores, restaurants, and parking garages. Overall, Ashley has 20 years of work experience in diverse projects from conceptual design phases to construction administration. She is currently in the process of renewing her NJ & NY licenses.

Herman Donaldson - Project Architect

Herman's production experience will be leveraged towards addressing construction documents produced with consistent deadlines and high quality content.

Education: School of Continuing Education, Pratt Institute.
Bachelor of Science, Architectural Technology, Kean Univ.

Herman has 20+ years of architectural experience. He is very skilled in the production and coordination of construction documents, architectural standards, design principles and construction administration with a thorough knowledge of applicable building codes.

Ian McDonough - Media Coordinator

Ian will be assisting the marketing team as a graphic and web designer and a social media coordinator.

Education: Bachelor of Arts Communications with a minor in New Media & Digital Culture Coastal Carolina Univ.

Ian joins us from Farber Studio where he served as their Assistant Studio Manager. His background in graphic design will be directed towards our client and inhouse communications, web, and social media platforms. Most recently, Ian has been asked to re-evaluate and address our website for design and functionality.
